

IntelliProcess — Procurement and Invoice Approval Guidelines (FY2024)

1. Purpose

These guidelines define how purchase orders and supplier invoices are reviewed, matched, and approved within the IntelliProcess accounts-payable workflow.

2. Automatic Approval Criteria

An invoice is approved automatically only when ALL of the following conditions are met:

- a. The three-way match (purchase order, goods receipt, invoice) passes.
- b. The invoice total is less than or equal to USD 10,000.
- c. The overall data-extraction confidence is at least 0.85.
- d. The vendor appears on the approved vendor list.

If any condition fails, the invoice is escalated for manual review.

3. Escalation Routing

- Invoices exceeding the USD 10,000 threshold are escalated to the Finance Manager.
- Failed three-way matches, low extraction confidence, or unapproved vendors are escalated to the AP Clerk.

4. Three-Way Match Tolerance

- Purchase order amount variance is accepted within 5 percent.
- Vendor name is matched using fuzzy comparison.
- Quantities on the goods receipt must reconcile with the invoiced quantities.

5. Approved Vendor List

The current approved vendors include: Acme Office Supplies Inc., TechParts Global Ltd., Facilities Maintenance Co., CloudServ Solutions, and PrintWorks Inc. Adding a new vendor requires Finance Manager sign-off.

6. Document Retention

All invoices, purchase orders, and goods receipts are retained for seven years in accordance with financial record-keeping requirements.
